

## LEARNING IN INTERACTIVE VIDEO-ENABLED CLASSROOMS DISTANCE LEARNING USERS GROUP

Live-C has been created as a distance learning users group for K-12 teachers and technology coordinators with the objective of creating a forum for educators to facilitate collaboration and building resources for integrating distance learning into the classroom. LIVE-C offers a collaborative web portal and regular scheduled meetings to assist members in meeting their objectives for integrating distance learning into the classroom.

### EVENTS SCHEDULE

Teacher Track - All sessions are available via video conference.

Technical Track - 1/2 training sessions designed for technology coordinators and network administrators

LIVE-CTech Update - Date 1 -

LIVE-CTech Update - Date 2 -

#### October, 23 2008- Introduction to Video Conferencing and Collaborative Learning Tools

Bring your laptops for this informal get together and exchange of who you are, where you're from and what you do. Introduction to the Moodle Community (<http://t4.lanceford.net>) Partnering Up

#### November, 20 2008 - Virtual Field Trips

What organizations can come along side you in the classroom through Virtual Field Trips. Let's look at some of the possibilities and take a demonstration trip together. Bring the laptops and look at some content surrounding your curriculum.

#### December, 18 2008 - Teacher to Teacher Collaboration - Part 1

You love to teach a specific piece of content within your curriculum. The resources you use are unique. It's the annual project you complete with your students. Why not share that great classroom experience with another educator. This session will be dedicated to brainstorming ideas, partnering sites and beginning conversations surrounding teachers collaborating on content delivery. We will use the laptops in chat environments and forum discussions to "work out" the details.

#### January, 22 2008 - Teacher to Teacher Collaboration - Part 2

Now that you've got the ideas and the details worked out, this is your opportunity to fine-tune with the group. We'll discuss and make final preparations for your collaborative experience. This session will end with scheduling details and connectivity concerns.

## EVENTS SCHEDULE CONTINUED...

---

### February, 19 2008 - Student to Student Collaboration - Part 1

Let's move the responsibility for the content interaction to the students. This session will focus on ideas for bringing students together in a collaborative interaction. We will "partner up" sites to begin the discussion of content and curricular goals for the interaction. Again, bring those laptops as we work out the details.

### March, 12 2008 - Student to Student Collaboration - Part 2

It's time to put feet to those ideas once again. This session will provide teachers an opportunity to hone their student collaborative ideas before "going live" in communications between the sites. We will set specific dates and times for the student collaboration and interactions.

### April 23, 2008 - Time to Reflect and Celebrate

This final meeting of the year will be an opportunity for teachers to discuss what worked, what didn't, what could be revised and the future of LIVE-C. We will begin the planning for the 09-10 school year with goals and ideas for continued integration.
